We manage our finances and assets responsibly to support our work against serious and organised crime.

## Chapter **7**Financial performance

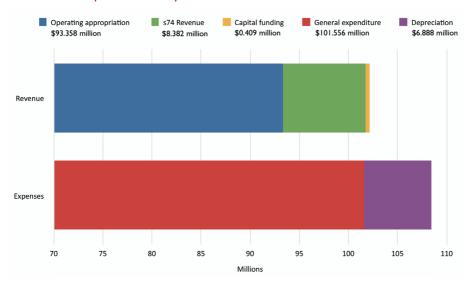

Overview of financial performance	page 190
Agency Resource Statement	page 193
Audited financial statements	page 196

### Overview of our financial performance

The ACC's financial result for 2014–15 was a deficit of \$6.295 million. The accounting standards require non-operating items such as unfunded depreciation expenses and capital funding income from portfolio agencies to be recognised as operating activity. With the exclusion of unfunded depreciation and capital funding, the ACC would have realised a surplus of \$0.184 million for the financial year.

The ACC received an unmodified audit opinion from the Australian National Audit Office.

### Revenue and expenditure analysis 2014-15

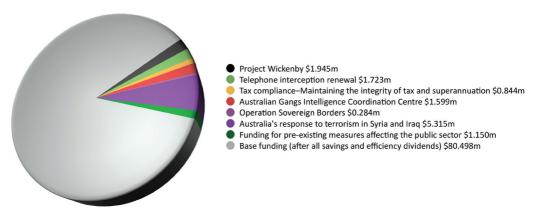

### Appropriation for 2014-15

The ACC's total appropriation for 2014–15 was \$98.370 million, which included \$93.358 million operating budget, \$4.812 million Departmental Capital Budget and a net equity injection of \$0.200 million.

A breakdown of operating appropriation for 2014–15 is provided in the following chart.

### Operating appropriation 2014–15

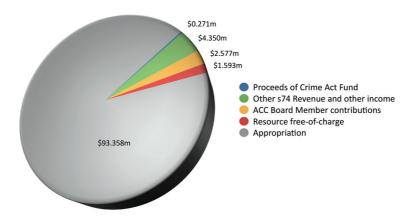

### The tied funding included:

- \$1.945 million to fund Project Wickenby investigations and prosecutions. Project Wickenby was a joint operation with the Australian Taxation Office and other key agencies to gather intelligence on, investigate and prosecute abusive tax haven arrangements.
- \$1.723 million to ensure a continued capability to intercept communications to reduce the incidence and impact of serious and organised crime. This program is being conducted jointly with the Australian Federal Police and the Australian Security Intelligence Organisation.
- \$5.315 million to contribute to the whole-of-government effort to counter the threat of foreign fighters and Islamist extremism.
- The remaining \$3.877 million in other tied funding included:
  - \$0.844 million to generate intelligence targeting unexplained wealth for the Australian Taxation Office
  - \$1.599 million funding for the Australian Gangs Intelligence Coordination Centre
  - \$0.284 million to support Operation Sovereign Borders
  - \$1.150 million one-off fund to manage pre-existing measures affecting the public sector.

Revenue for 2014–15 included \$93.358 million appropriation (which includes the tied funding described above) and \$8.791 million in own source revenue. Own source revenue includes \$4.621 million received for the provision of services, \$2.577 million from inter-governmental agreements, and \$1.593 million in resources received free-of-charge. All own source revenue is received from Commonwealth, state and territory agencies and reflects their continuing contribution in managing nationally significant crime.

### Revenue 2014-15

The ACC's internal controls that ensure compliance with our financial responsibilities include:

- senior management involvement in budget development, allocation and monitoring
- internal and external reporting, including financial information to the ACC Board on the overall agency position and monthly reporting to the Department of Finance
- full engagement with the ACC Audit Committee
- periodic review of the Accountable Authority Instructions to ensure compliance with the Public Governance Performance and Accountability Act 2013
- regular audits by the Australian National Audit Office and the ACC's Internal Audit Team
- online financial delegation training and accreditation for staff
- National Manager endorsement to identify breaches of financial management practices under the *Public Governance Performance and Accountability Act 2013* and to provide assurance to the Accountable Authority for the compliance certification to be provided to the Minister for Justice and Minister for Finance
- centralised administration of procurement, property leases, assets, travel, credit cards, fleet vehicles, mobile phones and laptops.

### Agency Resource Statement 2014-15

	Actual available appropriations for 2014-15 \$'000	Payments made 2014–15 \$'000	Balance remaining \$'000
	(a)	(b)	(a-b)
Ordinary annual services Departmental appropriat			
Prior year departmental appropriation (incl. S.74 Relevant agency receipts)	\$28.588	\$28.588	\$0
Departmental appropriation (including Departmental Capital Budget)	\$98.1931	\$67.0622	\$31.131
S.74 Relevant agency receipts	\$15.843 <sup>2</sup>	\$14.400	\$1.443
Total ordinary annual services	\$142.624	\$110.050	\$32.574
Other services Departmental non-opera	ting		
Equity injections <sup>3</sup>	\$3.422	\$200	\$3.222
Total other services	\$3.422	\$200	\$3.222
Total resourcing and payments	\$146.046	\$110.250	\$35.796

- 1. The annual department appropriation includes \$0.023 million quarantined and unavailable for use due to the implementation of the mandatory telecommunications data retention measure.
- 2. The S.74 relevant agency receipts and the payments from departmental appropriation not adjusted for GST.
- 3. The equity injection funded for counter terrorism and national security was \$3.422 million, of which \$3.222 million has been re-phased to future years.

### Asset management

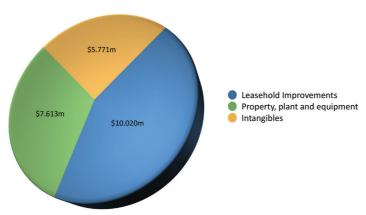

During 2014–15 we engaged the Australian Valuation Service Office (AVSO) to undertake a full revaluation of leasehold improvements and property, plant and equipment. It is currently ACC policy to undertake a full revaluation every three years and a desk top review each year in between. The aim of the desk top review is to determine whether the asset's book value materially differs from its fair value and adjust accordingly.

Our asset mix at the end of 2014–15 comprised:

- \$10.020 million—leasehold improvements
- \$7.613 million—property, plant and equipment (includes assets under construction)
- \$5.771 million—intangibles (includes assets under construction)

### Australian Crime Commission Annual Report 2014–15

### Fixed assets 2014–15

### **Property**

We have ACC offices in each capital city to support delivery of our national service. Our national property and accommodation strategy supports a clear and unified ACC culture and identity through a common look and feel to our offices, while also incorporating state-specific requirements. This strategy also aims to define in advance the requirements for each property location and to take advantage of positioning and favourable property market conditions where they exist. This year we took advantage of favourable market conditions in Sydney and Brisbane to reduce our footprint and ensure compliance with per person density requirements. We will continue to use this approach as our other office leases expire and/or new opportunities present themselves.

### **Purchasing**

Our approach to procuring property and services, including consultancies, is consistent with the Commonwealth Procurement Rules. The Commonwealth Procurement Rules are applied to activities through the Accountable Authority Instructions and supporting operational policies and procedures, which are reviewed for consistency with the Commonwealth Procurement Framework. The procurement framework reflects the core principle governing Australian Government procurement—value for money. Our policies and procedures also focus on:

- encouraging competitive, non-discriminatory procurement processes
- efficient, effective economical and ethical use of resources
- accountability and transparency.

During 2014–15 we continued to participate in whole-of-government coordinated procurement initiatives and used clustering and piggybacking opportunities to lower tendering costs and provide savings through economies of scale.

### Consultants

During 2014–15, the ACC entered into 12 new consultancy contracts, involving total actual expenditure of \$0.384 million (inc. GST). In addition, one ongoing consultancy contract was active during 2014–15, which involved consultancy expenditure of \$0.045 million (inc. GST), taking the total consultancy expense to \$0.429 million (inc. GST). Information on the value of contracts and consultancies is available on the AusTender website at <a href="https://www.tenders.gov.au">www.tenders.gov.au</a>.

Consultants are typically engaged to investigate or diagnose a defined issue or problem, carry out defined reviews or evaluations, or provide independent advice, information or creative solutions to assist in the ACC's decision-making. Prior to engaging consultants, we take into account the skills and resources required for the task, the skills available internally, and the cost-effectiveness of engaging external expertise. We make decisions to engage a consultant in accordance with the *Public Governance*, *Performance and Accountability Act 2013* and related regulations including the Commonwealth Procurement Rules and relevant internal policies.

### **Exempt contracts**

During the reporting period we did not publish the details of two contracts with a total value of \$5.873 million (inc. GST) on AusTender. These contracts were not published due to the ACC's exemption under section 105D of the *Public Governance Performance and Accountability Act 2013*.

### Procurement initiatives to support small business

The ACC supports small business participation in the Commonwealth Government procurement market. Small and Medium Enterprises (SME) and Small Enterprise participation statistics are available on the Department of Finance's website: <a href="https://www.finance.gov.au/procurement/statistics-on-commonwealth-purchasing-contracts/">www.finance.gov.au/procurement/statistics-on-commonwealth-purchasing-contracts/</a>>.

The ACC recognises the importance of ensuring that small businesses are paid on time. We support the use of SMEs through various means including the use of template contracts for both low risk and higher risk procurements and compliance with the Government's Supplier Pay on Time or Pay Interest Policy.

### Access clauses

During the reporting period we did not enter any contracts of \$100 000 or more that excluded provision for access by the Auditor-General.

### Grants and sponsorships

Information on grants awarded by the ACC during the period 1 July 2014 to 30 June 2015 is available at <a href="https://www.crimecommission.gov.au/about-us/governance">https://www.crimecommission.gov.au/about-us/governance</a>.

### Audited financial statements

### INDEPENDENT AUDITOR'S REPORT

### To the Minister for Justice

I have audited the accompanying annual financial statements of the Australian Crime Commission for the year ended 30 June 2015, which comprise:

- Statement by the Accountable Authority and Chief Financial Officer;
- Statement of Comprehensive Income;
- Statement of Financial Position;
- Statement of Changes in Equity;
- · Cash Flow Statement;
- · Schedule of Commitments; and
- Notes to the financial statements comprising a Summary of Significant Accounting Policies and other explanatory information.

### Accountable Authority's Responsibility for the Financial Statements

The Chief Executive Officer of the Australian Crime Commission is responsible under the *Public Governance, Performance and Accountability Act 2013* for the preparation and fair presentation of annual financial statements that comply with Australian Accounting Standards and the rules made under that Act. The Chief Executive Officer is also responsible for such internal control as is necessary to enable the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

My responsibility is to express an opinion on the financial statements based on my audit. I have conducted my audit in accordance with the Australian National Audit Office Auditing Standards, which incorporate the Australian Auditing Standards. These auditing standards require that I comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of accounting estimates made by the Accountable Authority of the entity, as well as evaluating the overall presentation of the financial statements.

GPO Box 707 CANBERRA ACT 2601 19 National Circuit BARTON ACT Phone (02) 6203 7300 Fax (02) 6203 7777 I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

### Independence

In conducting my audit, I have followed the independence requirements of the Australian National Audit Office, which incorporate the requirements of the Australian accounting profession.

### Opinion

In my opinion, the financial statements of the Australian Crime Commission:

- (a) comply with Australian Accounting Standards and the Public Governance, Performance and Accountability (Financial Reporting) Rule 2015; and
- (b) present fairly the financial position of the Australian Crime Commission as at 30 June 2015 and its financial performance and cash flows for the year then ended.

Australian National Audit Office

Peter Kerr

**Executive Director** 

Delegate of the Auditor-General

Canberra

24 September 2015

### STATEMENT BY THE ACCOUNTABLE AUTHORITY AND CHIEF FINANCIAL OFFICER

In our opinion, the attached financial statements for the year ended 30 June 2015 comply with subsection 42(2) of the *Public Governance, Performance* and Accountability Act 2013 (PGPA Act), and are based on properly maintained financial records as per subsection 41(2) of the PGPA Act.

In our opinion, at the date of this statement, there are reasonable grounds to believe that the Australian Crime Commission will be able to pay its debts as and when they fall due.

ol : -

Chris Dawson, APM Chief Executive Officer

### SCHEDULE OF COMMITMENTS (CONTINUED)

as at 30 June 2015

- 1. Commitments are GST inclusive where relevant.
- 2. Operating leases included are effectively non-cancellable agreements and comprise:

Nature of Lease	General description of leasing arrangements
Leases for office accommodation	Lease payments are subject to terms as detailed in the lease agreement.
Leases for the provision of motor vehicles	No contingent rentals exist and there were no renewal or purchase options available to the ACC.
Leases for other equipment held	No contingent rentals exist and there are no renewal or purchase options available to the ACC.

3. Other commitments included are effectively non-cancellable agreements for software maintenance & support, information technology infrastructure maintenance & support, and guarding services.

This schedule should be read in conjunction with the accompanying notes.

### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### 1.1 Objectives of the Australian Crime Commission (ACC)

The ACC is Australia's national criminal intelligence agency with specialist investigative capabilities. The ACC's objective is to reduce serious organised crime threats of most harm to Australians and the national interest by working across national boundaries to provide Australia with the ability to discover, understand and respond to nationally relevant serious and organised crime. The ACC does this by proactively discovering new and emerging threats, bringing together its specialist capabilities to fill intelligence gaps and to create innovative ways to prevent and disrupt serious and organised crime activity.

The ACC is structured to meet one outcome and one program:

Reduced serious and organised crime threats of most harm to Australians and the national interest including through providing the ability to discover, understand and respond to such threats.

The continued existence of the agency in its present form and with its present outcome/ program is dependent on Government policy and on continuing funding by Parliament for the ACC

ACC activities contributing toward these outcomes are classified as departmental. Departmental activities involve the use of assets, liabilities, income and expenses controlled or incurred by the ACC in its own right.

### 1.2 Basis of Preparation of the Financial Statements

The financial statements are general purpose financial statements and are required by section 42 of the *Public Governance, Performance and Accountability Act 2013(PGPA Act)*.

The Minister for Finance and the Minister for Justice entered into an agreement that applies under other instrument (Division 4) of the PGPA rule. The agreement concerns the provision of annual financial statements by the ACC and states that the ACC will prepare its financial statements in accordance with the modified provision S105D (42) (5) of the PGPA rule.

The financial statements have been prepared in accordance with:

- a) Financial Reporting Rule (FRR) for reporting periods ending on or after 1 July 2014; and
- b) Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board (AASB) that apply for the reporting period.

The financial statements have been prepared on an accrual basis and in accordance with the historical cost convention, except for certain assets and liabilities at fair value. Except where stated, no allowance is made for the effect of changing prices on the results or the financial position.

The financial statements are presented in Australian dollars and values are rounded to the nearest thousand dollars unless otherwise specified.

### 1.3 Significant Accounting Judgements and Estimates

In the process of applying the accounting policies listed in this note, the ACC has made assumptions or estimates in the following areas that have the most significant impact on the amounts recorded in the financial statements:

- The fair value of ACC's leasehold improvements and property, plant & equipment has been taken to be the market value or depreciated replacement costs as determined by an independent valuer. In some instances, ACC's leasehold improvements are purpose-built and some specialised property, plant & equipment may in fact realise more or less in the market; and
- Leave provisions involve assumptions based on the expected tenure of existing staff, patterns of leave claims and payouts, future salary movements and future discount rates.

No other accounting assumptions or estimates have been identified that have a significant risk of causing a material adjustment to carrying amounts of assets and liabilities within the next reporting period.

### 1.4 New Australian Accounting Standards

### Adoption of New Australian Accounting Standard Requirements

The ACC has adopted AASB 2015-7 earlier than the application date. This standard exempts not-for-profit public sector entities from disclosing the fair value measurement of property, plant and equipment assets which are primarily held for internal or policy use, rather than to generate future cash flows.

During the 2014-15 financial year several accounting standards and interpretations were issued prior to the signing of the financial statements by the Accountable Authority and Chief Financial Officer and are applicable to the current reporting period. The accounting standards that had a material effect on the ACC's 2014-15 financial statements are summarised below.

Accounting Standard	Main changes	Impact on the ACC's financial statements
AASB 1055 Budgetary Reporting	Requires reporting of budgetary information by not-for-profit entities within the General Government Sector (however, Comparative budgetary information in respect to the previous reporting period is not required to be disclosed). In particular:  original budget presented to Parliament;  variance of actual from budget; and explanations of significant variances.	The ACC has disclosed budgetary information in the notes forming part of the financial statements.  In particular, following are disclosed in the note:  original budget presented to Parliament;  variance of actual from budget; and  explanations of significant variance.

All other new accounting standards did not have a material effect and are not expected to have a future material effect on the ACC's financial statements.

### Future Australian Accounting Standard Requirements

During the 2014–15 financial year several accounting standards and interpretations were issued or amended by the Australian Accounting Standards Board which are effective for future reporting periods, however those future standards and interpretation are not expected to have any material impact on the ACC's future financial statements.

### 1.5 Revenue

The ACC receives revenue from intergovernmental agreements. These are recognised as own-source revenue from State and Territory Police.

Revenue from rendering of services is recognised by reference to the stage of completion of contracts at the reporting date. The revenue is recognised when:

- The amount of revenue, stage of completion and transaction costs incurred can be reliably measured; and
- b) The probable economic benefits associated with the transaction will flow to the ACC.

The stage of completion of contracts at the reporting date is determined by reference to the proportion that costs incurred to date bear to the estimated total costs of the transaction.

Receivables for goods and services, which have 30 day terms, are recognised at the nominal amounts due less any impairment allowance account. Collectability of debts is reviewed at end of the reporting period. Allowances are made when collectability of the debt is no longer probable.

### Resources Received Free of Charge

Resources received free of charge are recognised as revenue when, and only when a fair value can be reliably determined and the services would have been purchased if they had not been donated. Use of those resources is recognised as an expense.

### Revenue from Government

Amounts appropriated for departmental appropriations for the year (adjusted for any formal additions and reductions) are recognised as Revenue from Government when the ACC gains control of the appropriation, except for certain amounts that relate to activities that are reciprocal in nature, in which case revenue is recognised only when it has been earned. Appropriations receivable are recognised at their nominal amounts.

### Sale of Assets

Revenue from disposal of assets is recognised when control of the asset has passed to the buyer.

### 1.6 Transactions with the Government as Owner

### **Equity Injections**

Amounts appropriated which are designated as 'equity injections' for a year (less any formal reductions) and Departmental Capital Budgets (DCBs) are recognised directly in contributed equity in that year.

### 1.7 Employee Benefits

Liabilities for 'short-term employee benefits' (as defined in AASB 119 *Employee Benefits*) and termination benefits expected within twelve months of the end of reporting period are measured at their nominal amounts.

The nominal amount is calculated with regard to the rates expected to be paid on settlement of the liability.

### Leave

The liability for employee benefits includes provision for annual leave and long service leave. No provision has been made for sick leave as all sick leave is non-vesting and the average sick leave taken in future years by employees of the Agency is estimated to be less than the annual entitlement for sick leave.

The leave liabilities are calculated on the basis of employees' remuneration at the estimated salary rates that will be applied at the time the leave is taken, including the ACC's employer superannuation contribution rates to the extent that the leave is likely to be taken during service rather than paid out on termination.

The liability for long service leave has been determined by reference to Financial Reporting Rule 32 using the short-hand method. The estimate of the present value of the liability takes into account attrition rates and pay increases through promotion and inflation.

### Separation and Redundancy

Provision is made for separation and redundancy benefit payments. The ACC recognises a provision for termination when it has developed a detailed formal plan for the terminations and has informed those employees affected that it will carry out the terminations.

### **Superannuation**

The majority of the ACC staff are members of the Commonwealth Superannuation Scheme (CSS), the Public Sector Superannuation Scheme (PSS) or the PSS accumulation plan (PSSap). A small number of staff are members of employee nominated superannuation funds, as allowed under the ACC's enterprise agreement.

The CSS and PSS are defined benefit schemes for the Australian Government. The PSSap and other employee nominated superannuation funds are defined contribution schemes.

The liability for defined benefits is recognised in the financial statements of the Australian Government and is settled by the Australian Government in due course. This liability is reported in the Department of Finance's administered schedules and notes.

The ACC makes employer contributions to the employees' superannuation scheme at rates determined by an actuary to be sufficient to meet the current cost to the Government. The ACC accounts for the contributions as if they were contributions to defined contribution plans.

The liability for superannuation recognised as at 30 June represents outstanding contributions for the final fortnight of the year.

### 1.8 Leases

Operating lease payments are expensed on a straight line basis which is representative of the pattern of benefits derived from the leased asset. Lease incentives are recognised as other payables and amortised over the period of the lease on straight line basis.

The ACC leases office accommodation, motor vehicles and other equipment under operating lease agreements.

### 1.9 Fair Value Measurement

The ACC deems transfers between the levels of fair value hierarchy to have occurred at the end of the reporting period.

### 1.10 Financial Assets

### Cash & Cash Equivalent

Cash is recognised at its nominal amount. Cash and cash equivalents include:

- a) cash on hand; and
- b) cash held in bank accounts.

### Loans and Receivables

Trade receivables are classified as 'loans and receivables' and recorded at face value less any impairment. Trade receivables are recognised where the ACC becomes party to a contract and has a legal right to receive cash. Trade receivables are derecognised on payment. Loans & receivables are assessed for impairment at the end of each reporting period. Allowances are made when collectability of the debt is no longer probable.

### 1.11 Financial Liabilities

Supplier and other payables are classified as 'other financial liabilities' and are recognised at amortised cost. Liabilities are recognised to the extent that the goods or services have been received (and irrespective of having been invoiced). Supplier and other payables are derecognised on payment.

### 1.12 Contingent Liabilities and Contingent Assets

The ACC had no quantifiable or unquantifiable contingent assets or liabilities as at 30 June 2015 (2014: nil).

### 1.13 Acquisition of Assets

Assets are recorded at cost on acquisition. The cost of acquisition includes the fair value of assets transferred in exchange and liabilities undertaken. Financial assets are initially measured at their fair value.

### 1.14 Property, Plant and Equipment

### Asset Recognition Threshold

Purchases of property, plant and equipment are recognised initially at cost in the Statement of Financial Position, except for leasehold improvements costing less than \$150,000 (2013-14: \$150,000) and property, plant and equipment costing less than \$2,000 (2013-14: \$2,000), which are expensed in the year of acquisition. Purchases of ICT infrastructure such as PC's, laptops, monitors and other portable items that are used to deliver end user application are capitalised regardless of the value of the asset purchased.

The initial cost of an asset includes an estimate of the cost of dismantling and removing the item and restoring the site on which it is located. This is particularly relevant to 'make good' provisions in property leases taken up by the ACC where there exists an obligation to restore the property to its original condition. These costs are included in the value of the ACC's leasehold improvements with a corresponding provision for the 'make good' recognised.

### Revaluations

Following initial recognition at cost, property, plant and equipment are carried at fair value less subsequent accumulated depreciation and accumulated impairment losses. Fair value assessments are conducted every year to ensure that the carrying amounts of assets do not differ materially from the assets' fair values as at the reporting date. Independent valuations are conducted every 3 years by an external valuer. The most recent independent valuation was conducted as at 30 June 2015.

Revaluation adjustments were made on a class basis. Any revaluation increment was credited to equity under the heading of asset revaluation reserve except to the extent that it reversed a previous revaluation decrement of the same asset class that was previously recognised in the surplus/deficit. Revaluation decrements for a class of assets were recognised directly in the surplus/deficit except to the extent that they reverse a previous revaluation increment for that class.

### Depreciation

Depreciable property, plant and equipment assets are written-off to their estimated residual values over their estimated useful lives to the ACC using, in all cases, the straight-line method of depreciation.

Depreciation rates (useful lives), residual values and methods are reviewed at each reporting date and necessary adjustments are recognised in the current, or current and future reporting periods, as appropriate.

Depreciation rates applying to each class of depreciable asset are based on the following useful lives:

	2015	2014
Leasehold improvements	Lease term	Lease term
Property, plant and equipment	3–5 years	3–5 years

### **Impairment**

All assets were assessed for impairment at 30 June 2015. Where indications of impairment exist, the asset's recoverable amount is estimated and an impairment adjustment made if the asset's recoverable amount is less than its carrying amount.

### **Derecognition**

An item of property, plant and equipment is derecognised upon disposal or when no further future economic benefits are expected from its use or disposal.

### Intangibles

The ACC's intangibles comprise internally developed software for internal use and externally purchased software. These assets are carried at cost less accumulated amortisation and accumulated impairment losses. There were no accumulated impairment losses in 2015.

Purchases of software are recognised initially at cost in the Statement of Financial Position, except for purchases costing less than \$2,000 (2013-14: \$2,000), which are expensed. Dependent on the stage of development, internally developed software is recognised at cost in the Statement of Financial Position, except for purchases costing less than \$20,000 (2013-14: \$20,000), which are expensed.

Software is amortised on a straight-line basis over its anticipated useful life. The useful lives of the ACC's software are 3 to 5 years (2013–14: 3 to 5 years).

Software licences with the renewable term of one year are treated as prepayments at the time of purchases and expensed over the one year term.

### 1.15 Taxation

The ACC is exempt from all forms of taxation except Fringe Benefits Tax (FBT) and the Goods and Services Tax (GST).

Revenues, expenses and assets are recognised net of GST except:

- where the amount of GST incurred is not recoverable from the Australian Taxation Office;
- for receivables and payables.

### 1.16 Special note for non- corporate Commonwealth entities under the PGPA Act (formerly the prescribed agencies under the FMA Act)

The Australian Government continues to have regard to developments in case law, including the High Court's most recent decision on Commonwealth expenditure in Williams v Commonwealth [2014] HCA 23, as they contribute to the larger body of law relevant to the development of Commonwealth programs. In accordance with its general practice, the Government will continue to monitor and assess risk and decide on any appropriate actions to respond to risks of expenditure not being consistent with constitutional or other legal requirements.

### NOTE 2: EVENTS AFTER THE REPORTING PERIOD

The Australian Government is considering whether the Australian Institute of Criminology (AIC) should be merged with the ACC, but a final decision has not been made. In the interim, the ACC and AIC will continue to exist and operate as separate entities, while working together on expanding existing relationships.

There were no other subsequent events that had the potential to significantly affect the ongoing structure and financial activities of the Australian Crime Commission.

### **NOTE 3: NET CASH APPROPRIATION ARRANGEMENTS**

	2015 \$'000	2014 \$'000
Total comprehensive income less depreciation/amortisation expenses previously funded through revenue appropriations <sup>1</sup>	3,198	1,030
Plus: depreciation/amortisation expenses previously funded through		
revenue appropriation	-6,888	-7,347
Total comprehensive loss—as per the Statement of Comprehensive Income	-3,690	-6,317

From 2010–11, the Government introduced net cash appropriation arrangements, where revenue appropriations for depreciation/ amortisation expenses ceased. Entities now receive a separate capital budget provided through equity appropriations. Capital budgets are to be appropriated in the period when cash payment for capital expenditure is required.

### **NOTE 4: EXPENSES**

NOTE 4. EXTENSES

### NOTE 6: FAIR VALUE MEASUREMENTS

The following tables provide an analysis of assets and liabilities that are measured at fair value.

Fair value measurement must be classified into one of three fair value measurement hierarchy levels depending on the inputs used in the measurement.

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the ACC can access at measurement date.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3: Unobservable inputs for the asset or liability.

	Fair value n	neasurem e reportin			and 3 fair value surements
	2015 \$'000	2014 \$'000	Level 2 or Level 3 <sup>1</sup>	Valuation technique(s) <sup>2</sup>	Inputs used
Non-financial assets <sup>3</sup>					
Leasehold improvements	10,020	6,949	Level 3	Depreciated Replacement Cost (DRC)	Replacement cost new and consumed economic benefit/ obsolescence of asset
Property, plant and equipment	1,573	4,003	Level 2	Market Approach	Adjusted market transactions of similar assets
	5,730	2,317	Level 3	Depreciated Replacement Cost (DRC)	Replacement cost new and consumed economic benefit/ obsolescence of asset
Total fair value measurements of assets in the statement of financial position <sup>4</sup>	17,323	13,269			

- The ACC did not measure any financial liabilities, non-financial liabilities or non-financial assets at fair value on a non-recurring basis as at 30 June 2015.
- Changes were made to the valuation techniques used for some of the assets in the property, plant and equipment class. During the revaluation process, the Depreciated Replacement Cost approach was considered more appropriate for those assets than the market approach, hence the valuation technique was changed from level 2 to 3.
- 3. For the ACC highest and best use of all non-financial assets are the same as their current use. The ACC has chosen to early adopt AASB 2015-7 Amendments to Australian Accounting Standards – Fair Value Disclosures of Not-for-Profit Public Sector Entities at 30 June 2015. The future economic benefits of the ACC's non-financial assets are not primarily dependent on their ability to generate cash flows. The ACC has not disclosed qualitative information about the significant unobservable inputs or a narrative description of the sensitivities of the fair value measurements to changes in the unobservable inputs.
- 4. The total fair value of leasehold improvements and property, plant & equipment excludes assets under construction not measured at fair value

### NOTE 6: FAIR VALUE MEASUREMENTS (CONTINUED)

### Note 6A: Fair Value Measurements, Valuation Techniques and Inputs Used (continued)

### Recurring and non-recurring Level 3 fair value measurements—valuation processes

The ACC tests the procedures of the valuation model at least once every 12 months (with a formal valuation undertaken once every 3 years). For the 2014–15 financial year, the ACC engaged Australian Valuation Solutions (AVS) to undertake a full revaluation of leasehold improvements and property, plant and equipment assets and confirmed that the models developed are in compliance with AASB 13.

Significant level 3 inputs used by the ACC are derived and evaluated as follows:

### Leasehold Improvements—Consumed economic benefit/Obsolescence of asset

Under the cost approach the estimated cost to replace the asset is calculated and then adjusted to take account of an accumulated depreciation. The accumulated depreciation has been determined based on professional judgement regarding physical, economic and external obsolescence factors.

### Property, Plant and Equipment—Consumed economic benefit/Obsolescence of asset

Operational equipment has been measured using the cost approach. Under the cost approach the estimated cost to replace the asset is calculated and then adjusted to take account of an accumulated deprecation. The accumulated deprecation has been determined based on professional judgement regarding physical, economic and external obsolescence factors.

### Note 6B: Level 1 and Level 2 Transfers for Recurring Fair Value Measurements

The ACC had no transfers between level 1 and 2 of the measurement hierarchy.

# NOTE 6: FAIR VALUE MEASUREMENTS (CONTINUED)

Note 6C: Reconciliation for Recurring Level 3 Fair Value Measurements

Recurring Level 3 fair value measurements-reconciliation for assets

			Non-financial assets	assets

Total as at 30 June 2015	10,020	7,613	4,780	991	23,404

No indicators of impairment were identified for leasehold improvements, property, plant and equipment and intangibles.

No leasehold improvements, property, plant and equipment and intangibles were expected to be sold or disposed of within the next 12 months.

## Revaluations of non-financial assets

All revaluations were conducted in accordance with the revaluation policy stated at Note 1. As at 30 June 2015, an independent valuer conducted the revaluations.

A revaluation increment of \$1.20m for leasehold improvements (2014: Nil) and a revaluation increment of \$1.34m for property, plant and equipment (2014: Nil) were credited to the asset revaluation surplus by asset class and included in the equity section of the Statement of Financial Position. No increments/decrements were expensed in 2015 (2014: Nil).

NOTE 8: NON-FINANCIAL ASSETS (CONTINUED)

### **NOTE 14: FINANCIAL INSTRUMENTS**

	Notes	2015 \$'000	2014 \$'000
Note 14A: Categories of Financial Instruments			
Financial Assets			
Loans and receivables			
Cash and cash equivalents		740	1,317
Trade and other receivables	7	742	140
Total financial assets		1,482	1,457
Financial Liabilities			
Financial liabilities measured at amortised cost			
Trade creditors and accruals	9A	5,607	4,987
Total financial liabilities		5,607	4,987

# Note 14B: Credit Risk

The ACC is exposed to minimal credit risk on financial assets, represented by cash and cash equivalents and trade and other receivables. For the purposes of this note, appropriations receivable are not disclosed as financial instruments as it does not meet the definition of a financial asset. The maximum exposure to credit risk is the risk that arises from potential default by debtors. This amount was equal to total receivables for services, in 2015: \$0.742m (2014: \$0.140m). The ACC has assessed the risk of the default on payment to be nil in 2015 (2014: Nil).

The ACC manages its credit risk by undertaking a robust debtor management program. In addition, the ACC has procedures to guide the debt recovery processes that are to be applied. The ACC does not require collateral in respect of trade and other receivables. As at 30 June 2015 the ACC has determined that all the outstanding debtors are expected to be settled in 2015–16 financial year.

### Note 14C: Liquidity Risk

The ACC's financial liabilities are trade creditors and accruals. The exposure to liquidity risk is based on the notion that the ACC will encounter difficulty in meeting its obligations associated with financial liabilities. This was highly unlikely as the ACC has appropriated funding from the Australian Government and the ACC manages its budgeted funds to ensure it has adequate funds to meet payments as they fall due. In addition, the ACC has policies in place to ensure timely payments were made when due and has no past experience of default.

# Note 14D: Market Risk

The ACC holds basic financial instruments that do not expose the ACC to certain market risks, such as 'Currency risk' and 'Other price risk'.

# NOTE 15: FINANCIAL ASSETS RECONCILIATION

	Notes	2015 \$'000	2014 \$'000
Total financial assets as per statement of financial position		34,643	30,707
Less: Non-financial instrument components			
Appropriations receivable-existing programs	7	32,551	28,588
GST receivable	7	610	662
Total non-financial instruments components		33,161	29,250
Total financial assets as per financial instruments note		1,482	1,457

# NOTE 16: APPROPRIATIONS

Note 16A: Annual Appropriations ('Recoverable GST exclusive')

Annual Appropriations for 2015

	Appropriation Act	PGPA Act		Appropriation applied		
	Annual¹ Appropriation	Section 74	Total appropi	in 2015 (current and prior years)	Variance <sup>2</sup>	Section 51 determinations <sup>3</sup>
	\$,000	\$,000	\$,000	\$,000	\$,000	\$,000
Departmental						
Ordinary annual						
services	98,193	12,789	110,982	-107,461	3,521	•
Other services						
Equity	3,422	-	3,422	-200	3,222	3,222
Total departmental	101,615	12,789	114,404	-107,661	6,743	3,222

The annual appropriation for the ordinary annual services includes \$0.023m quarantined by the Department of Finance for the implementation of mandatory telecommunications data retention.

The variance of \$3.521m indicates the appropriation applied from the total appropriation was lower due to Section 74 of the PGPA Act and appropriation funds held to cover for 2015-16 proceeds of crime activities and ongoing capital projects. The variance of \$3.222m represents unused appropriation (equity injection) re-phased to future years.

The equity injection funded for counter-terrorism & national security was \$3.422m of which \$3.222m has been re-phased via the application of Section 51 determination of the PGPA Act, this constitutes a permanent loss of control of the funds for the 2014-15 financial year. 7 ;

<sup>1.</sup> Explanation of major variances are provided in Note 18B.

# Note 18B: Explanation of Major Variances

The following provides a comparison of the original budget as presented in the 2014–15 Portfolio Budget Statements (PBS) and the revised budget as presented in the 2014–15 Portfolio Additional Estimates Statements (PAES) to the 2014–15 final outcome as in accordance with Australian Accounting Standards for the entity. The intention of this variance analysis is to provide the reader with information relevant to assessing the performance of the agency, including the accountability for the resources entrusted to it.

Australian Accounting Standard AASB 1055 Budgetary Reporting requires variance explanations of major variances between the original budget as presented in the 2014–15 PBS and the actual outcome as reported in these financial statements. It should be noted that the original budget was prepared before the 2013–14 actual figures could be known. As a consequence the opening balance of the 2014–15 Statement of Financial Position needed to be estimated and in some cases variances between 2014–15 actual and budget numbers can be at least in part attributed to unanticipated movements in the prior period figures.

Variances attributable to factors which would not reasonably have been identifiable at the time of the budget preparation, such as revaluation or impairment of assets or reclassifications of asset reporting categories have not been included as part of the analysis.

The ACC considers that major variances are those greater than 10% of the original estimate. Variances below this threshold are not included unless considered significant by their nature.

The Budget is not audited.

# **General Commentary**

In accordance with the Commonwealth budget framework, the ACC revised the estimates during the year for a number of reasons, including Government decisions and policy, prior year outcomes, current year trends, the effects of price and growth, and transfers to and from other Commonwealth entities. The revised estimates for the 2014–15 financial year are published in the 2014–15 PAES.

(a) In the 2014–15 PAES the ACC was funded for measures that resulted in increased operational activities.

The measures were:

- Funding for pre-existing measures affecting the public sector;
- National security—additional counter terrorism funding; and
- National Security—implementation of mandatory telecommunications data retention.

This has caused an increase in the following financial statement line items and corresponding cash flow.

- Appropriation
- Employee benefits
- Suppliers
- Employee provisions

# **Statement of Comprehensive Income**

# (b) Own Source Revenue

The variance between original budget own-source revenue and actual is due to additional revenue received from partner agencies for increased operational activities. These activities also align with the revised estimates included in the PAES.

# (c) Other Gains & Other Revenue

The variances between the budget and the actual for 'Other Gains' and 'Other Revenue' is due to the misclassification of the budget under 'Other Gains'.

# **Statement of Financial Position**

# (d) Non-financial assets

The variance in the actual assets to 2014–15 PBS is mainly caused by the acquisition of leasehold improvements for Brisbane & Sydney premises and the impact of the independent valuation of non-financial assets. The total estimated non-financial assets at the time of the 2014–15 PAES were consistent with the actual outcome.

# (e) Trade and other receivables

The variance in the actual departmental trade & other receivables compared to 2014–15 PBS is as a result of additional funding for operational activities in 2014–15 & 2015–16 and lease incentive contributions on Sydney leasehold improvements.
