# INTRODUCTION

The controlled operations annual report 2019–20 is the 24th issued under Part IAB of the *Crimes Act 1914* (Cth) (the Act).

Controlled operations are investigations carried out within a legal framework that balances the need for operational flexibility with appropriate public accountability. Part IAB of the Act was designed to permit certain law enforcement agencies to undertake covert activity which would, in the absence of legislation, constitute an offence against the Commonwealth or that of a state or territory.

Controlled operations permit law enforcement agencies to use covert and coercive powers to uncover and interdict criminal activity and dismantle transnational organised crime syndicates. The offences investigated using this method cover a broad spectrum ranging from corruption, money laundering and importation of illicit goods and substances to terrorism, people smuggling and cybercrime.

The 2019–20 reporting period shows continued success through the seizures of border controlled drugs for the Australian Federal Police (AFP). One controlled operation saw the seizure of more than 150 kilograms of methamphetamine, preventing \$35 million of harm to the community. Through a joint law enforcement operation 645 kilograms of 3,4-Methylenedioxymethamphetamine (MDMA) was seized in Sydney and resulted in multiple arrests. The controlled operation regime has also been integral to the successful outcome of multiple terrorism-related and child exploitation related investigations the AFP has undertaken.

The Australian Criminal Intelligence Commission (ACIC) conducts special investigations and intelligence operations into federally relevant criminal activity, including large-scale and organised serious offences such as drug trafficking and money laundering. Controlled operations form a fundamental part of ACIC's operational methodologies, resulting in interventions such as arrests and seizures, and securing valuable evidence for prosecutions. The ACIC also works with its partner law enforcement agencies, using the unique intelligence derived from its controlled operations to support joint operations, and to generate compelling insights into criminal syndicates and their activities.

A note on nomenclature: on 1 July 2016, the Australian Crime Commission (ACC) became known as the ACIC. This annual report refers to controlled operations authorities that were issued before that date but remained active within the 2019–20 reporting year, as well as those that were issued on or after the 1 July 2016. The included reports therefore make reference to both the ACC and ACIC.

When appropriate, the Australian Commission for Law Enforcement Integrity (ACLEI) conducts controlled operations in support of its investigations into corrupt conduct by law enforcement officials.

The controlled operations in this report authorised by 'authorised officers' defined in the Act highlight the cooperation between national and international law enforcement agencies and their success in disrupting the activities of organised crime syndicates and illicit commodity flows. The seizure of illicit goods and proceeds of crime and the subsequent arrest of offenders demonstrate that Australia is committed to combating organised crime and will not be seen as an easy target for such activities.

## GUIDE TO THIS REPORT

This year's report provides details of controlled operations in accordance with the reporting requirements of both the current and the previous legislation.

Part A describes the requirements of the current legislation.

Part B describes the requirements of the legislation in effect until 18 February 2010, with these requirements still applying to certain matters.

### Part A. Current legislative requirements

#### Crimes Act 1914 (Cth)

On 19 February 2010, the *Crimes Legislation Amendment (Serious and Organised Crime) Act 2010* (Cth) received royal assent. This Act provided amendments related to controlled operations Part IAB of the Act – Controlled operations.

Controlled operations can be undertaken with respect to any serious Commonwealth offence or serious state offence that has a federal aspect.

A **controlled operation** is defined by section 15DG of the Act as one that:

1. involves the participation of law enforcement officers; and
2. is carried out for the purpose of obtaining evidence that may lead to the prosecution of a person for a serious Commonwealth offence or a serious State offence that has a federal aspect; and
3. may involve a law enforcement officer or other person in conduct that would, apart from section 15HA, constitute a Commonwealth offence or an offence against a law of a State or Territory.

A **serious Commonwealth offence**, pursuant to section 15GE of the Act, means an offence against a law of the Commonwealth that is punishable on conviction by imprisonment for a period of three years or more, or a Commonwealth offence that involves a matter specified by subsection 15GE(2), including: theft, fraud, tax evasion, illegal gambling, extortion, bribery of a public official, people smuggling and slavery.

A **major controlled operation** is defined by subsection 15GD(2) of the Act as being a controlled operation that is likely to:

1. involve the infiltration of an organised criminal group by one or more undercover law enforcement officers for a period of more than seven days; or
2. continue for more than three months; or
3. be directed against suspected criminal activity that includes a threat to life.

## Authorisation of controlled operations

Section 15GH governs applications for authorities to conduct controlled operations.

An Australian law enforcement officer may apply to an authorising officer for an authority to conduct a controlled operation. An authorising officer for a controlled operation is pursuant to section 15GF of the Act.

Both formal and urgent applications must provide sufficient information to enable the authorising officer to decide whether or not to grant the application, state whether an earlier application has been made, and state the proposed period of effect of the authority (pursuant to subsection 15GH(4)). The proposed period of effect of the authority must not exceed three months in the case of a formal application, or seven days in the case of an urgent application. Additionally, an authorising officer can require an applicant to produce additional information (per subsection 15GH(5)).

## Determination of applications

Section 15GI governs the determination of applications, including what factors should be taken into consideration by the authorising officer. Pursuant to subsection 15GI(1) the authorising officer may either grant or refuse an application, and where they grant an application, the authorisation may be subject to conditions. Subsection 15GI(2) furthermore outlines criteria that the authorising officer must be satisfied are met in order to grant an authority, including: that a serious offence has been committed or is being or is likely to be committed, or that an integrity testing authority is in effect in relation to an offence that it is suspected has been, is being or is likely to be committed by a staff member of a target agency; that the severity of the criminal activity is such as to justify the conduct of the proposed controlled operation; that the controlled operation will not be conducted in such a way that a person could be induced to commit an offence that they would not otherwise have committed; the risks posed by the proposed controlled operation; and, the question of whether any civilian role in the controlled operation could be adequately performed by a law enforcement officer instead.

## Controlled operation authorities

Section 15GK sets out requirements for the form a controlled operations authority must take, including that an authority must state: the name of the applicant, certain information concerning the illicit goods, the identity of persons authorised to engage in the controlled conduct, and the nature of the criminal activity being targeted.

The person responsible for an individual controlled operation is then the principal law enforcement officer specified in the authority (per section 15GC).

## Period of effect

An urgent controlled operation authority can remain in force only for a maximum of seven days.

A formal controlled operation authority must specify the period of effect of the authority, this being a period of less than three months (per subsection 15GK(1)(h)). The authority will then expire at the end of the period of its effect (pursuant to section 15GN), unless it has been extended under either subdivision B or C of the Division. If a formal controlled operation authority needs to be extended, then a variation application needs to be made. The variation application to extend the period of effect of a formal controlled operation authority beyond three months must be presented to a nominated Administrative Appeals Tribunal (AAT) member, who may extend the period of effect for up to three months at a time (pursuant to section 15GT). However, of note is that, per subsection 15GT(3) the total period of effect for a formal or major controlled operation authority cannot exceed 24 months.

## Variations to the authority

Variation of a controlled operations authority can be made (pursuant to section 15GO) by an appropriate authorising officer. The appropriate authorising officer may, either at any time on their own initiative, or on application (under subsection 15GP(1)):

1. extend the period of effect of the authority (subject to subsections (3) and (4) of section 15GO); or
2. authorise additional persons to engage in controlled conduct for the purposes of the controlled operation and specify:
  - a. with respect to additional law enforcement participants – the nature of the controlled conduct that those participants may engage in; and
  - a. with respect to additional civilian participants – the particular controlled conduct (if any) that each such participant may engage in; or
2. provide that specified persons are no longer authorised to engage in controlled conduct for the purposes of the controlled operation; or
3. authorise participants in the controlled operation to engage in additional or alternative controlled conduct.

## Cancellation of authority

An appropriate authorising officer may, by order in writing given to the principal law enforcement officer for a controlled operation, cancel the authority to conduct the controlled operation at any time and for any reason (pursuant to section 15GY).

## Reporting requirements

### Six-monthly reports to the Minister and Ombudsman

Section 15HM requires that, as soon as practicable after 30 June and 31 December each year, the chief officer of each authorising agency must submit a report to the Commonwealth Ombudsman (the Ombudsman). The report needs to set out the details required by subsection 15HM(2) in relation to controlled operations the authorising agency was responsible for during the previous six months. A copy of the 15HM report must be provided to the responsible Minister (the Minister) at the same time as it is provided to the Ombudsman.

### Chief officers' annual report to the Minister and Ombudsman

Section 15HN requires that as soon as practicable after 30 June in each year, the chief officer of each authorising agency must submit a report to the Minister setting out the details required by subsections 15HM(2), (2A), (2B) and (2C) regarding the controlled operations that agency had authority over during the previous 12 months. A copy of a report given to the Minister under section 15HN must also be given to the Ombudsman at the same time.

The AFP prepared the controlled operations annual report 2019–20 in consultation with the ACIC and ACLEI.

### Material excluded from reporting

In accordance with subsection 15HN(2) of the Act, the Minister is required to exclude from the annual report information that, if made public, could reasonably be expected to:

1. endanger a person's safety; or
2. prejudice an investigation or prosecution; or
3. compromise any law enforcement agency's operational activities or methodologies; or
4. be contrary to the public interest for any other reason.

## Part B. Historic legislative requirements

On 8 July 1996, the Commonwealth Parliament passed legislation to provide for the conduct of controlled operations by Australian law enforcement agencies.

The following legislative references are to sections of the Act in force until 18 February 2010.

Under the now repealed section 15T of the Act, the Minister was required to lay before each house of parliament, not later than the first sitting day of the House after 1 October each year, a report on controlled operations. Details to be provided in the report include: the date on which the application was made, the decision taken about the application, the reasons for that decision, and information on reports given to the Minister under section 15R during that financial year.

### Material excluded from reporting

In accordance with the now repealed subsection 15T(3) of the Act, the annual report is not to include any information about any person (including the person's name) that has not already been published about that person. Additionally, if the Minister is of the view that it is likely that the inclusion of any information in a report provided by the Commissioner of the AFP, the Integrity Commissioner of ACLEI or the Chief Executive Officer of the ACIC may either endanger the safety of a person, or prejudice an investigation or prosecution, then the Minister must consequently exclude the information from the report under subsection 15T(4) of the Act. If information is excluded pursuant to subsection 15T(4) in the version of the report provided to parliament, the information is to be published in the first report after the Minister considers that the information will no longer endanger the safety of a person or prejudice the investigation or prosecution.

## Information withheld under the *Crimes Act 1914* (Cth)

Subsections 15HN(2), 15HN(4) and, in the case of operations prior to March 2010, the repealed subsections 15T(3) and 15T(4) of the Act require that reporting of controlled operations exclude information that could, if made public, endanger a person's safety, prejudice an investigation or prosecution, compromise any law enforcement agency's modus operandi, be contrary to the public interest or identify any person involved in an operation. When it is no longer necessary to exclude this information, it is published in a subsequent annual report (see Schedule 2).
