Snapshot of 2022–23

PERFORMANCE HIGHLIGHTS

We delivered **mission critical intelligence** on the highest-level transnational serious and organised crime threats impacting Australia, and played a critical role in bringing partners together to build operational strategies and coordinate disruption activities.

We produced **101** analytical intelligence and **2,618** tactical intelligence products.

We made **15,781** disseminations of intelligence products among **191** partners.

Our intelligence contributed to **78** disruptions of criminal entities.

Our intelligence contributed to the seizure of drugs with an estimated street value of **$7.9 billion** and cash and assets worth **$28.0 million**.

We provided **national policing information** systems and services to law enforcement and intelligence partners to keep them and the Australian community safe.

We provided **12** information systems to help our partners prevent, detect and reduce crime in the community.

Our policing information systems met **100%** of availability benchmarks set by the ACIC Board.

Our National Criminal Intelligence System grew from **2,876** to **36,492** unique users.

Of our surveyed stakeholders, **96%** agreed that our information systems are valuable to their work.

We delivered world-class background **checking services** to support employment or entitlement decisions.

We processed **7.2 million** nationally coordinated criminal history checks.

We conducted **149** compliance audits for National Police Checking Service accredited bodies.
